

The 3D-Complete Formula

A good product doesn't happen by accident. It takes a skilled plan, refinement and production expertise. During our 30 years in business, we've figured out the best way to get your private label apparel project from design concept to production-ready, is by having a solid formula and process which we call "3D Complete". This service is an **ALL-IN-ONE** solution for customers looking to have us handle all the aspects of their project from the design to the manufacturing of the product. Our knowledge of this process is second to none, and we are one of the only private label manufacturers in the business that provides this service to our customers.

- 1. Project Overview** - Our team meets with the client to explore and define the specific functions and needs before we prepare a project packet that covers all the scope and details.
- 2. First Round Costing** - Our team provides project sourcing summary to determine that we can meet your cost, design requests and delivery goals.
- 3. Design/Sampling** - Our team creates computer rendered drawings and samples, solves technical issues and resolve costing assumptions.
- 4. Final Approval** - Once you approve the final design sample and issue a purchase order for production it moves to production.
- 5. Production Process** - Our team issues raw materials to factories, manages the manufacturing schedule and performs regular on-site quality inspections.
- 6. Packaging/Final QC** - Our team submits shipment samples to the client, QC's all packaging for individual products, performs a final audit of the product and transmits the advance shipping notice.
- 7. Delivery/Customs Clearance** - Our team ships product according to client's instructions.
